*“Live as if you were to die tomorrow. Learn as if you were to live forever.” ~ Mahatma Gandhi*

I never really thought of creating a “bucket list”, things I wanted to do or accomplish during my lifetime, until I saw the 2007 movie with Jack Nicholson and Morgan Freeman by the same name. While ICL doesn’t offer sky diving or high-risk sports, new adventures are offered every semester conveniently and at a minimal cost. Take a chance and try something new. Learn to play the ukulele or start stamp collecting. If you love nature, learn how to paint, and photograph your favorite scenes. Taking a river cruise on the Rhine or tubing in Helen, learning a bit of German will help your experience. Stretch your gray matter with scholarly courses on James Polk or Towns County history. Help protect yourself on multiple levels with a Tech Talk course, learning the power of medicinal herbs, or defending yourself from attackers.

I have to confess that I’ve never been big on card games. So, when my husband suggested we learn Pinochle this past semester, I was skeptical. What fun it has been and I’m catching on quickly. I invite you to get out of your comfort zone and try something new, perhaps a start to kicking off your bucket list. And remember, learn as if you were to live forever!

Wishing you good health and a safe summer,

Maria Britt  
President, ICL

**SAVE THE DATE:** ICL’s 30<sup>th</sup> Anniversary celebration will be August 28<sup>th</sup> at the Hamilton Gardens Pavilion. Please join us for cake and coffee along with a preview of Fall classes. The view is amazing and the gardens spectacular! More information to follow.

### **WHAT IS MAH-JONGG? - Class Limit 12**

***Ann Powell, 8 Sessions, Wednesday, June 28 – August 16, 10:00 am – 12:00 pm, Cost \$24, In Class***

Mah-Jongg is a game that originated in China and is similar to the Western card game rummy. It is a game of skill, strategy, and calculation and involves a degree of chance. The game is played with a set of 144 tiles based on Chinese characters and symbols. Three or four players play the game using numbered tiles. During those first years after its introduction a real craze developed around Mah-Jongg, but like all fashions it came and went. However, recently a growing number of people are realizing the intellectual challenge Mah-Jongg possesses and the beauty and excitement of the game itself. Come learn and play. This class will lead you step by step into the wonderful world of Mah-Jongg. Come learn and play.

*After living in various places: Pittsburgh, PA; Spartanburg, SC; Upper Saddle River, NJ; Chicago, IL; Charleston, SC and Franklin, NC, Ann made the retirement decision to live in Blairsville, GA in 2017. Ann learned how to play Mahjongg 12 years ago. While growing up in the Pittsburgh area, Ann did see and hear the tiles “clickity, clickity” on the tables while her friend’s parents played Mah-jongg. Never did she ever think she would one day learn to play and teach Mahjongg*

### **INTRODUCTION TO STAMP COLLECTING**

***Joe Ruf, 5 Sessions, Monday, June 28 – July 26, 1:00 pm – 3:00 pm, Cost: \$18, Simulcast***

The world of stamp collecting can open a whole new world of friendship, history, and geography. One of the ultimate goals of this class is to have a group of collectors that would be interested in starting a stamp collecting club in our area.

The main goal of this course is to acquaint a potential hobbyist with the rewards, costs, fundamentals, and terminology of Philately (Stamp Collecting). Philately is a word with Greek roots and is the formal name of the hobby.

This course will be taught with a mixture of hands-on training using state of the art hobby materials and lecture. The hands-on training portion will be done with stamps and materials supplied by the instructor. The attendees will keep the final products. Each attendee will be given about 150 to 200 stamps to work with. Each lecture will be documented with handouts and exhibits.

No addition fees will be required. No products or supplies will be sold. Questions will be encouraged. There will be some group discussion.

The last meeting will be a field trip to see a collection of over 100,000 unique stamps. The collection also contains every US stamp from 1935 till the present.

*Joe has over thirty years of experience in the Information Technology field, and retired as Vice President of BellSouth Information Systems prior to joining Matrix. Matrix is an Atlanta based Personnel Search firm and Joe worked for them for five years establishing several sales records and their national personnel contract bidding line of business.*

*Prior to BellSouth, Joe served four years in the United States Air Force. Since retiring from BellSouth Joe has served two terms, six years, on the Board of Directors of Atlanta Habitat Humanity, one term on the DeKalb Habitat Board and has made three Habitat For Humanity International Global Village building trips to Eastern Europe.*

*Currently, Joe is a Mentor with the Gainesville Chapter of SCORE responsible for Towns County. Joe has been with SCORE for 19 years.*

*Joe and his wife Liz have visited 42 countries.*

*Joe received a B.A. from Georgia State University and graduated with honors.*

### **UKULELE 101**

***Cy Sineath, 8 Sessions, Monday, June 28 – August 16, 3:30 pm – 5:30 pm, Cost: \$24, In Class***

Where else can you take a class and automatically be plugged into a local “club”? Those who have taken Ukulele 101 have formed a group that continues to play at a local restaurant on a weekly basis. (This is in addition to the class itself.) The ukulele is enjoying a great resurgence in popularity, the world over. This course is an opportunity to learn to play and enjoy the “funnest instrument on earth”. No prior musical experience is necessary, and please, no music theory. Each week, the class will learn new chords, songs, and strumming patterns that build on the week before. By the end of the 6 weeks, participants should be able to play literally hundreds of songs and confidently strum along with ukulele groups wherever they are found. Singing and laughing are integral to this course! Requirements: A ukulele and a willingness to sing and laugh with the group! The facilitator has a limited number of ukuleles that may be loaned until participants obtain their own.

*Cy Sineath has been playing the ukulele for 5 years and has enjoyed playing socially with groups throughout the southeast as well as Dublin, Ireland and London, England. Prior to moving to Blairsville in 2017, he played regularly with two groups in the Atlanta area. He feels the ukulele is much like the game of Bridge; you can learn the basics in a matter of hours and then spend the rest of your life mastering it. He now lives here in the mountains with his wife, Labrador Retriever, and more than a few ukuleles.*

### **BEGINNING GERMAN**

***Susan Crooks, 6 Sessions, Tuesday, June 29 – August 3, 11:00 am – 12:00 pm, Cost: \$16, In Class***

Susan has traveled extensively in German speaking countries as well as other countries, and just returned from Norway where she saw the Northern Lights.*

### **FROM SEA TO SHINING SEA - PRESIDENT JAMES POLK AND MANIFEST DESTINY**

***Bob Short, 8 Sessions, Tuesday, June 29 – August 17, 1:00 pm – 2:00 pm, Cost: \$18, Simulcast***

"Go West Young Man," is a phrase often credited to American author and newspaper Horace Greeley. He promoted America's expansion westward following the concept of Manifest Destiny. Hundreds of thousands of pilgrims followed his advice and made the perilous journey from the densely settled east coast to the Pacific Ocean. Manifest Destiny was a cult-like movement that assigned Americans a special mission, a sacred job given only to them. That task was to make America bigger so that America's "borders of freedom" would be open to even more emigres. In 1845 the effort got a big boost when Tennessee Senator James K. Polk was elected president. Like his mentor, former president Andrew Jackson, he believed strongly in the objectives of the movement. So strongly in fact that he oversaw the growth of the nation by more than a million square miles

during his four years in the White House. Most notably, Polk brought the Republic of Texas into the Union; bluffed Britain out of the state of Oregon and took California and much of our present Southwestern states from Mexico. Not everyone agreed with Polk's frenzied desire to grab more and more land. Future president Abraham Lincoln, a congressman at the time, opposed his war with Mexico, but eventually voted for his request for a declaration. In this course, we will take a look at Polk's life and career that will reveal a portrait of an expansionist president and decisive statesman who refined the United States of America.

*After retiring in 2001, Bob returned to his native north Georgia mountains to concentrate on preserving Georgia's political history. He became the creator of an oral history series entitled "Reflections on Georgia Politics" for Young Harris College's Zell and Shirley Miller Library and the Richard B. Russell Library for Political Studies and Research at the University of Georgia.*

## **MOUNTAIN LANDSCAPES IN WATERCOLOR**

**Juli Sibley, 6 Sessions, Tuesday, June 29 – August 3, 4:00 pm – 6:00 pm, Cost: \$20, In Class**

Let your artist's eyes observe the summer colors of the mountain valleys, lakes, mists, and ridges of this lovely season. Traditional approaches to creating forms and depth on the land will be emphasized with a playful approach. We will practice with various types of views and scenes. Each week we will look at a certain type of subject and how various layers of color create effects, using blending, washes, layered washes, and wet on wet, etc. There will be color handouts of each weekly subject so that play can continue at home. Good for those who like to exercise their imagination. Remember: there is no wrong way to do this! The class is suitable for beginner to advanced.

**Materials:** Any brand of watercolor paints, pointed, round and wash brushes, plastic container, (for rinsing), pallet, watercolor paper- 90 lb. or higher grade, paper towels. If you do not have any painting supplies, please wait until the first class to see what the options are and what is available locally. There are so many types of materials available which the instructor will explain their many uses, so that you may make an informed decision. We all have plenty to share, so you will not be left out. **Materials fee for handouts: \$ 12 payable on first day of class.**

*Juli Sibley is a designer, teacher and writer from Young Harris, GA. As a student at YHC many of her inspirations for art came from the natural beauty of this valley. Her latest book, "Earth Friendly Fabric Design" is available worldwide on Amazon.com. She holds a MA in Fine Art from Western Carolina University. Most recently, she has been a member of the art faculty at Augusta State University where she taught the art history section of World Humanities.*

## **TECH TALK – SECURITY**

**Mike Maisello, 3 Sessions, Wednesday, June 30 – July 14, 2:00 pm – 4:00 pm, Cost: \$16, Zoom**

"If you spend any amount of time online browsing the internet, emailing, shopping or performing financial transactions you should take steps to mitigate the possibility of someone stealing your personal information. This course will discuss ways to keep safe while performing tasks online. Some of the topics that will be discussed are vishing and phishing, fake or spoofing websites, ransom ware and more. Mitigation/protection strategies will be presented and discussed: Strong passwords, VPN's, Windows 10 security settings, virus and firewall protection browser security and more. Cell phone security will be presented. Bring your questions and comments I have found that students learn as much from listening to other students as they do from listening to me.

There will be an optional third class session where students can talk about their favorite online application or piece of technology they use. During that optional session students can ask any technology question they may have about any topic everything is fair game.

So, join the class and learn how to keep your online experience safer and more secure."

### **TAKING GREAT PHOTOS WITH YOUR iPHONE**

***J. Patrick Mahon, 8 Sessions, Thursday, July 1 – August 19, 3:00 pm – 5:00 pm, Cost: \$24, Simulcast***

An adage among photographers has been, "The best camera is the camera you have now." Often, the only camera might be our phone--iPhone or Android. As manufacturers of phones improve technology, phones now offer the capability to take high quality photos. The difference in the number of pixels accounts for the major difference between DSLRs, mirrorless cameras and phones: however, it is possible to take great photographs with any camera. The class will cover subjects from focus to composition and post-processing. Each week participants will be given an assignment so their photographs can be reviewed by the class the following week.

*J. Patrick Mahon is a retired educator who has taken up photography in his retirement years. He is a member of Professional Photographers of America, Georgia Nature Photographers Association, Florida Nature Photographers Association, Carolina Nature Photographers Association, National Nature Photographers Association, the Mountain Arts Association, and the Southeastern Photographers Society.
